

## David A. Rahn

---

Atmospheric Science Program  
Department of Geography  
University of Kansas  
201 Lindley Hall  
1475 Jayhawk Blvd.  
Lawrence, KS 66045-7613 USA  
Email: darahn@ku.edu

### Education

Ph.D., 2008: Atmospheric Science, University of Wyoming, Laramie, WY  
Dissertation Topic: Forcing mechanisms of coastally trapped wind reversals

M.S., 2006: Atmospheric Science, University of Wyoming, Laramie, WY  
Thesis Topic: Modification of the coastal jet by Cape Mendocino

B.S., 2003: Atmospheric and Oceanic Science, University of Wisconsin, Madison, WI

### Professional Positions

8 / 2012 - Present: Assistant Professor, Department of Geography, University of Kansas, Lawrence, Kansas

9 / 2008 - 9 / 2012: Postdoctoral Research Associate, University of Chile, Santiago, Chile

9 / 2004 - 8 / 2008: Graduate Research Assistant and Teaching Assistant, Department of Atmospheric Sciences, University of Wyoming, Laramie, Wyoming

### Research Interests

Coastal meteorology (including coastally trapped wind reversals, coastal lows, and low level jets), synoptic and large scale influences on the marine atmospheric boundary layer, and aircraft instrumentation.

### Refereed Publications

Rahn, D. A., 2012: Influence of large scale oscillations on upwelling-favorable coastal wind off central Chile. *J. Geophys. Res.*, 117, D19114, doi:10.1029/2012JD018016.

Juliá, C., D. A. Rahn, J. A. Rutllant, 2012: Assessing the influence of the MJO on strong precipitation events in subtropical, semi-arid north-central Chile (30°S). *J. Climate*, 25, 7003-7013.

Rahn, D. A., R. Garreaud, and J. Rutllant, 2011: The low-level atmospheric circulation near Tongoy Bay / point Lengua de Vaca (Chilean coast, 30°S). *Mon. Wea. Rev.*, **139**, 3628-3647.

Garreaud, R., J. Rutllant, R. Muñoz, D. Rahn, M. Ramos, and D. Figueroa, 2011: VOCALS-CUpEx: The Chilean Upwelling Experiment. *Atmos. Chem. Phys.*, **11**, 2015-2029, doi:10.5194/acp-11-2015-2011.

Rahn, D. A. and Garreaud, R., 2010: Marine boundary layer over the subtropical southeast Pacific during VOCALS-REx – Part 1: Mean structure and diurnal cycle, *Atmos. Chem. Phys.*, **10**, 4491-4506, doi:10.5194/acp-10-4491-2010.

Rahn, D. A. and Garreaud, R., 2010: Marine boundary layer over the subtropical southeast Pacific during VOCALS-REx – Part 2: Synoptic variability, *Atmos. Chem. Phys.*, **10**, 4507-4519, doi:10.5194/acp-10-4507-2010.

Rahn, D. A. and T. R. Parish, 2010: Cessation of the 22-25 June 2006 Coastally Trapped Wind Reversal. *J. Appl. Meteor. Climatol.*, **49**, 1412-1428.

Rahn, D. A. and T. R. Parish, 2008: A Study of the Forcing of the 22-25 June 2006 Coastally Trapped Wind Reversal based on Numerical Simulations and Aircraft Observations. *Mon. Wea. Rev.*, **136**, 4687–4708.

Parish, T. R., D. A. Rahn, and D. Leon, 2008: Aircraft Observations of a Coastally Trapped Wind Reversal off the California Coast. *Mon. Wea. Rev.*, **136**, 644–662.

Rahn, D. and T. R. Parish, 2007: Diagnosis of the Forcing and Structure of the Coastal Jet near Cape Mendocino Using In Situ Observations and Numerical Simulations. *J. Appl. Meteor. Climatol.*, **46**, 1455-1468.

#### **Other Non-peer reviewed Publications**

Garreaud, R., J. Rutllant, R. Muñoz, D. Rahn, M. Ramos, and D. Figueroa, 2010: VOCALS-CUPEx: The Chilean Upwelling Experiment. *CLIVAR-Exchanges Newsletter*, 15(2), 5-7.

#### **Participation in Scientific Meetings**

Rahn, D. A., 2012: Assessing intraseasonal to interannual variability of upwelling-favorable coastal winds off central Chile. *10<sup>th</sup> Symposium on the Coastal Environment*, New Orleans, LA, *Amer. Meteor. Soc.*, **3A.3**.

Rahn, D. A., and R. D. Garreaud, 2011: Climatology of the 10-m wind along the west coast of South America from 30 years of high-resolution reanalysis. *Segundo Congreso de Oceanografía Física, Meteorología y Clima*, Coquimbo, Chile.

Rahn, D. A., and J. Rutllant, 2011: Eventos de Precipitación intensa en función de la altitud en el valle del Elqui: Parte III: Eventos aislados en La Serena y en Embalse Laguna [Intense precipitation events as a function of altitude in the Elqui valley: Part III: Isolated events in La Serena and the Laguna Dam]. *Segundo Congreso de Oceanografía Física, Meteorología y Clima*, Coquimbo, Chile.

### **Current Projects:**

NSF Grant: AGS-1034862, 2012-2014

Title: PREcision Atmospheric Marine Boundary Layer Experiment (PREAMBLE)

PIs: David A. Rahn and Thomas R. Parish

FONDECYT Grant: 3110100, 2010-2012

Title: Synoptic Influence on the subtropical Marine Boundary Layer in the Southeast Pacific: The SIMBL Experiment

PI: David A. Rahn

### **Field Work**

May/June 2012: PREcision Atmospheric Marine Boundary Layer Experiment (PREAMBLE). Directed aircraft missions that investigated a variety of coastal meteorological phenomena in southern California. Total flight hours: 34.5

September 2011: Synoptic Influence on the subtropical Marine Boundary Layer (SIMBL). Radiosondes were launched twice daily for two weeks from Robinson Crusoe Island (archipelago Juan Fernández), ~700 km west of the central Chilean coast.

December 2009 – January 2011: VOCALS-CUpEx. Flew missions measuring the coastal jet along the coast of Chile. Total flight hours: 9.3.

November/December 2009: VAMOS Ocean-Cloud-Atmosphere-Land Study – Chilean Upwelling Experiment (VOCALS-CUpEx). Stationed at Talcaruca, Chile with main duties including launching radiosondes.

June 2006: Dynamics and Microphysics in Marine Stratocumulus (DMIMS). Maintained airborne aerosol instrumentation and directed missions. Total flight hours: 23.7.

### **Past Projects:**

FONDECYT Grant: 1090412

Title: Dynamics of the Atmospheric Marine Boundary Layer off Subtropical Chile

Role: Post-doctoral researcher and technical support

2009-2010

FONDECYT Grant: 1090492

Title: Variabilidad Climática en Chile: Evaluación, Interpretación y Proyecciones (ACT19/R19)

Role: Post-doctoral researcher

2008-2009

ONR Grant N000140510720 and NSF Grant ATM-0332202

Title: Dynamics and Microphysics in Marine Stratocumulus (DMIMS)

Role: Research assistant (Ph. D. Student)

2006-2008

NSF Grant: ATM-0332202

Title: An Application of Airborne Global Positioning System (GPS) Measurements to Studies of Atmospheric Dynamics

Role: Research assistant (Masters Student)

2005-2006

### **Teaching Experience**

ATMO105 – Introductory Meteorology, University of Kansas (Fall 2012)

ATMO505 – Weather Forecasting, University of Kansas (Fall 2012)

ATSC 2000 Lab – Introduction to Meteorology, Lab Instructor, Department of Atmospheric Science, University of Wyoming (Fall 2005, Fall 2006, Spring 2007, and Fall 2007).

ATSC 2000 Lecture – Introduction to Meteorology, Co-lecturer, Department of Atmospheric Science, University of Wyoming (Fall 2006 and Fall 2007).

### **Professional Activities**

2012 – present: Undergraduate Affairs Committee

2006 – 2008: Member, University of Wyoming Flight Safety Committee

### **Professional Affiliations**

2004 – present: American Meteorological Society

2007 – present: American Geophysical Union

2010 – present: European Geophysical Union

### **Computer Skills and Proficiency**

UNIX, Windows, IDL, MatLab, GEMPAK, GrADS, IDV, VAPOR, WRF

### **Languages**

English (native), Spanish
